Springfield, Missouri 65803

Dear Mr. Mallard:

This letter will confirm our conversation at your home on April 16, 1990 concerning the emptying of the contents from out of date soft drink cans to reclaim the aluminum for a Boy Scout money making project.

Please be advised this office does not consider the disposal of out of date soft drink products in a private residential sanitary sewer an appropriate use. If possible, the plant where the product was produced may be a better site for the disposal of the beverage.

If you have any questions please feel free to contact this office at 864-1924.

Yours truly,

Steve Short
Water Pollution Control Inspector
